4. Install two 3/8" bumper bolts (removed in step one), two 3/8" serrated washers, and two 3/8" lock nuts (from the parts package). Leave the lock nuts loose at this time.

!WARNING! Two 3/8" lock nuts must be used with two 3/8" bumper bolts; otherwise the receiver could loosen and separate from the vehicle.

5. Screw the pull wire (55392) onto a 1/2" carriage bolt. Feed the pull wire through a bolt plate and the large hole in the outboard side of the frame. Pull it out the bottom hole of the frame. Repeat for the other side. Install two 1/2" serrated washers, lock washers and nuts on the bolts. Leave the nuts loose at this time.
6. Tighten bolts and nuts in the exact order listed; this allows the receiver to be pulled rearward to the bumper before the frame bolts are tightened.
